

26568 - Language Disorders and Communication

Información del Plan Docente

Academic Year	2017/18
Faculty / School	107 - Facultad de Educación 202 - Facultad de Ciencias Humanas y de la Educación 301 - Facultad de Ciencias Sociales y Humanas
Degree	301 - Degree in Nursery School Education 302 - Degree in Nursery School Education 303 - Degree in Nursery School Education
ECTS	6.0
Year	4
Semester	Half-yearly
Subject Type	Optional
Module	---

1.General information

1.1.Introduction

The aim of the subject is to provide to the future graduate, with an indication of attention to diversity, the knowledge and the resources to deal with the difficulties and the disorders in the development of communication and language, early detection, early intervention and implementing programmes that anticipate the emergence of these difficulties in children aged 3 to 6 in our sociocultural environment.

1.2.Recommendations to take this course

1.3.Context and importance of this course in the degree

1.4.Activities and key dates

2.Learning goals

2.1.Learning goals

1. Knowing the development of language and communication, both normal and pathological in Infant Education
2. Knowing the theoretical basis and organization of problems related to the acquisition of communicative, speech, language and hearing skills.
3. Detecting, identifying and evaluating the disorders and the most common difficulties at a communicative and language level in the school environment, in children aged 0-6.
4. Knowing and being able to apply the most elementary strategies of intervention in the school environment, in communication, speech, language and hearing disorders.
5. Establishing collaborative and supportive relations with the families and with other professionals and institutions involved.

2.2.Importance of learning goals

3.Aims of the course and competences

26568 - Language Disorders and Communication

3.1.Aims of the course

3.2.Competences

4.Assessment (1st and 2nd call)

4.1.Assessment tasks (description of tasks, marking system and assessment criteria)

5.Methodology, learning tasks, syllabus and resources

5.1.Methodological overview

The methodology followed in this course is oriented towards achievement of the learning objectives. It is based on active participation, case studies, teamwork etc. that favors the development of communicative skills and critical thinking. A wide range of teaching and learning tasks are implemented, such as lectures, practical activities, practice sessions, autonomous work, tutorials, and academic guidance.

Further information regarding the course will be provided on the first day of class.

5.2.Learning tasks

The course includes 6 ECTS organized according to:

- Lectures (3 ECTS): 30 hours.
- Practice sessions (2 ECTS): 20 hours.
- Autonomous work (ECTS): 87 hours.
- Tutorials (1 ECTS): 10 hours.
- Assessment (0,3 ECTS): 3 hours.

Lectures: the professor presents theoretical contents.

Practice sessions: they can involve discussion and presentation of case studies, practical work outside the classroom (field work or visits), and seminars.

Autonomous work: students do tasks such as autonomous study, reading of the course book, preparation of practice sessions and seminars, and summative assignments.

Tutorials: professors' office hours can be used to solved doubts and to follow-up students' work.

Assessment: final examination

5.3.Syllabus

The course will address the following topics:

1. Communication and language. Evolutionary aspects. Theories. Risk detection.
2. Communication disorders. Concepts. Classification. Evaluation and intervention in the field of Education.
3. Language, speech, hearing and voice disorders. Evaluation and intervention in the field of Education.
