

30755 - Undergraduate Dissertation

Información del Plan Docente

Academic Year	2017/18
Faculty / School	
Degree	
ECTS	6.0
Year	---
Semester	Indeterminate
Subject Type	
Module	---

1.General information

1.1.Introduction

The Final Degree Project Undergraduate Dissertation has 6 ECTS, equivalent to 150 hours of personal work of the student. It is an original individually exercise, which will have sufficient personal creation. If done jointly with another student, it must be explicitly justified in the proposal, differentiating the work of each student. The condition of original work, prevents acceptance of work already valued in other courses.

The Undergraduate Dissertation will be developed in accordance with the Regulation of the University of Zaragoza and EINA

1.2.Recommendations to take this course

Student must meet the requirements of the rules of Undergraduate Dissertation of the University of Zaragoza and EINA.

1.3.Context and importance of this course in the degree

The Undergraduate Dissertation must conceive, plan and develop an academic work to reflect, analyze and present creatively and critically a matter within the architectural design and its technique, in accordance with the itinerary that develops in the Curriculum "Design and Construction".

1.4.Activities and key dates

The activities of the Undergraduate Dissertation must be agreed with the director or directors. These activities should take into account the deadlines for the project set out in the Regulations of the University of Zaragoza. The Undergraduate Dissertation proposal must be approved by the Academic Degree Commission.

Information on rules, instructions and administrative deposit is accessible on the website of EINA:
<https://eina.unizar.es/trabajos-fin-de-estudios/>.

2.Learning goals

30755 - Undergraduate Dissertation

2.1.Learning goals

Student must be capable of elaborate, present and defend individually, an original exercise of academic research in the field of architectural design and technique as a demonstration and synthesis of transversal and specific skills acquired in the teaching of architecture. The student may expose correctly in Spanish, or in English, a coherent summary of the work done.

2.2.Importance of learning goals

The course and the relevance of its results is high, since it involves the demonstration of skills acquired throughout the Degree.

3.Aims of the course and competences

3.1.Aims of the course
